## HOW TO DETERMINE YOUR RING SIZE

Ring sizing is tricky! We created this guide to help but we highly recommend going to a local jeweler and getting sized in person. Many of our rings are easily resized but there are some that cannot be resized (for example, most rings with stones or patterns all around). If you have any questions please email customerservice@catbirdnyc.com before purchasing. We also recommend ordering a Ring Sizer from us to ensure the most accurate sizing!

> * Before measuring - confirm printed paper size. *

[^0]

METHOD 2: Use a Paper Ring Sizer

Cut out the ring sizer and cut a slit on the vertical pink line. Wrap the ruler around the base of the intended finger.
Pull the angled end through the slit until the paper fits comfortably around your finger.

## HOW TO DETERMINE YOUR FIRST KNUCKLE RING SIZE

We've been making First Knuckle Rings since 2008, and w've been wearing them since... forever.
Ring sizing is tricky! We created this guide to help but we highly recommend going to a local jeweler and getting sized in person. Many of our rings are easily resized but there are some that cannot be resized (for example, most rings with stones or patterns all around). ## * Before measuring - confirm printed paper size. *

Before printing this document, ensure that Page Scaling is set to "None" on your print dialog box. If the length of the top bar on the left matches the length of your credit card or the bars below measure exactly 1 inch or 30 mm , you are good to go!

Keep in mind that sizing for a first knuckle ring is entirely dependent on the shape of your fingers and which finger you are going to wear it on. If you are generally a medium, a medium should fit one of your fingers, a small should fit one of the fingers of a small hand, etc. This is an approximate guide - sizes vary slightly by style and thickness. This guide only applies only to First Knuckle Rings made by Catbird.

METHOD 2: Use a Paper Ring Sizer

Cut out the ring sizer and cut a slit on the vertical pink line. Wrap the ruler around the base of the intended finger. Pull the angled end through the slit until the paper fits comfortably around your finger.
